Please check the box next to the appropriate category for the patient's condition:

Serious Health Condition (FMLA & CFRA): An illness, injury, impairment, or physical or mental condition that involves one of the following:

Hospital Care:

- ☐ Inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity or subsequent treatment in connection with or consequent to such inpatient care.

Absence Plus Treatment:

- ☐ A period of incapacity of more than three consecutive calendar days (including any subsequent treatment or period of incapacity relating to the same condition.)
- ☐ Treatment, two or more times, by a health care provider, a nurse or physician's assistant under direct supervision of a health care provider, or a provider of health care services under orders of, or referral by, a health care provider.
- ☐ Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.

Pregnancy: *(Employee's own incapacity due to pregnancy is covered as "serious health condition" under FMLA but not CFRA.)*

- ☐ Any period of incapacity due to pregnancy, or for prenatal care.

Chronic Conditions Requiring Treatment. A chronic condition which:

- ☐ Requires periodic visits for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider.
- ☐ Continues over an extended period of time (including recurring episodes of a single underlying condition.)
- ☐ May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.)

Permanent/Long-term Conditions Requiring Supervision:

- ☐ A period of incapacity, which is permanent or long-term, due to a condition for which treatment may not be effective. The employee must be under the continuing supervision of, but not need to be receiving active treatment by, a health care provider. (e.g., Alzheimer's, a severe stroke, or the terminal stages of a disease.)

Multiple Treatments (Non-Chronic Conditions):

- ☐ Any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provide or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment. (e.g., cancer (radiation, etc.) severe arthritis (physical therapy), kidney disease (dialysis).)

If the employee is asking for intermittent leave or a reduced work load, please answer the following:

☐	**Yes**	☐	**No**	Is it medically necessary for the employee to be off work on an intermittent basis or to work less than the employee's normal work schedule in order to deal with their serious health condition?

If 'Yes': Indicate the estimated number of doctor's visits, and/or estimated duration of medical treatment, either by health care practitioner or another provider of health services, upon referral from the health care provider:

☐	**Yes**	☐	**No**	Does or will the patient require assistance for basic medical, hygiene, nutritional needs, safety or transportation?
☐	**Yes**	☐	**No**	After review of the employee's signed statement, does the condition warrant the participation of the employee? (This participation may include psychological comfort and/or arranging for third-party care for the family member.)

Estimate the period of time care needed, or during which the employee's presence would be beneficial:

Note: Health care provider is not to disclose the underlying diagnosis without the consent of the patient.
